

FACULTY OF SCIENCE

ENVIRONMENTAL STUDIES BA

The Department of Environmental Studies and Sciences provides interdisciplinary programs that have a holistic view of the environment. Following the general principles of sustainability, the courses provide an integrated approach to understanding the environment, acknowledging human impact, and providing a framework to develop solutions to environmental problems.

Students in the BA degree program in Environmental Studies choose from two streams:

Issues in Sustainability - This stream provides a solid grounding in the social, political, and economic aspects of sustainable development; students may specialize in either Canadian or developing world issues.

Urban Environments - This stream not only recognizes the link between humans and the environment, but concentrates specifically on the environmental problems and issues related to urban expansion.

This program leads to a **Bachelor of Arts degree (3-year, 4-year, or Honours)**.

SAMPLE CAREERS

Employment opportunities exist with municipal planning departments, environmental consultants, landscape architects, non-governmental environmental organizations, crown corporations, engineering consultants, multinational corporations, and government departments – both in Canada and around the world.

SAMPLE COURSES

Human-Environmental Interactions is a first-year course that illustrates the complexity and diversity of environmental issues. The central theme is “understanding natural processes in the environment” as a means of measuring human impact.

The Urban Environment is a second-year course that examines urban growth and urbanization, the role of cities in the economy, aspects of urban structure, and the nature of urban activities.

Issues in Sustainable Cities covers topics such as world population growth; urbanization in developed and developing countries; impact of technology, trade, and commercial globalization.

MORE SAMPLE COURSES

- The Environment and Business
- Sex, Gender, Space and Place
- Environment and Health
- Voluntary Simplicity
- International Aspects of Economic Development

SAMPLE FIRST YEAR

Issues in Sustainability:

ENV-1600(3) Human-Environmental Interactions
BIOL-1106(3) Environmental Biology
ECON-1104(3) Introduction to Economic Theory
GEOG-1201(3) Introductory Atmospheric Science, GEOG-1202(3) Introductory Earth Science, and
GEOG-2309(3) Statistical Techniques in Environmental Analysis
RHET-1102(3) Academic Writing: Social Sciences **(The department recommends taking this course in first year, as most courses in the program include multiple writing assignments.)**
9 credit hours Humanities*

Urban Environments:

ENV-1600(3) Human-Environmental Interactions
ECON-1104(3) Introduction to Economic Theory
GEOG-1201(3) Introductory Atmospheric Science GEOG-1202(3) Introductory Earth Science, and
GEOG-2415(3) An Introduction to Urban Development
POL-2500(3) City Politics
RHET-1102(3) Academic Writing: Social Sciences **(The department recommends taking this course in first year, as most courses in the program include multiple writing assignments.)**
6 credit hours Humanities*
3 credit hours Elective, depending on interest
*Tip! PHIL-2233(3) Environmental Ethics counts both as a Humanities course and core course.

NOTE: This sample first year is representative of the courses you may take. For many of our programs, you may choose another set of courses and still be well on your way to a degree. Also, for most programs you do not have to take 30 credit hours (five full courses) in your first year.

NATIONAL ACCREDITATION: The BA degrees in Environmental Studies at UWinnipeg are accredited by the Canadian Environmental Accreditation Commission (CEAC) and Environmental Careers Organization (ECO) Canada. This demonstrates that our programs meet a national standard of quality.

“The Environmental Studies program provided me with a good foundational understanding of the many facets—ecological, political, economic, philosophical—of our world and society, from which both problems and potential solutions arise. I learned both how to access information and ideas, and how to communicate them.”

- Joanne Moyer (BA), who won the Chancellor's Gold Medal for the highest standing in Arts (4-year course)

REQUIRED HIGH SCHOOL COURSES

You must meet The University of Winnipeg's general admission requirements. No specific courses required.

HOW TO APPLY

For details on application requirements and deadlines, and to apply online, please visit:
