

FACULTY OF SCIENCE

GEOGRAPHY

Geography is a discipline that integrates the natural and social sciences; it explains how human and environmental systems function and interact.

The University of Winnipeg Geography program is divided into four areas of study:

Physical Geography examines components of the natural environment including landforms, weather and climate, soils and vegetative systems, and their impacts on humans.

Human Geography focuses on variations in the “human landscape” around the world—its agricultural systems, cities, industries, cultural expressions, and the particular problems faced by different societies.

Regional Geography combines both the physical and human features within specific areas of the world and provides a comprehensive understanding of the area in question.

Geomatics courses develop skills in cartography, map reading, interpretation of satellite images, and—using the department’s computer labs—computer mapping, Geographical Information Systems (GIS), satellite image analysis, and statistical data analysis.

This program can lead to a **Bachelor of Science Degree (3-year, 4-year, or Honours)** or a **Bachelor of Arts Degree (3-year, 4-year, or Honours)**. Students taking an undergraduate degree in another major may choose to add a Minor in Geography as a secondary area of interest.

NOTE: The joint Geography/GIS program with Red River College has been discontinued.

SAMPLE CAREERS

Those who specialize in human or regional geography find employment related to planning (city, rural, or regional), policy development, market assessment, location of business and industry, international development, and tourism.

Physical geographers work in natural resource assessment and management, agricultural development, soil and resource conservation, hydrology, and the atmospheric and geological sciences.

Those who focus on geomatics find jobs related to cartography, remote sensing, and in particular, applications of Geographic Information Systems (GIS).

If you’re interested in becoming a teacher, Geography can be used as a teachable major or minor in the Education Program. Postgraduate training in geography can lead to teaching opportunities at colleges and universities, or to research positions in government or industry.

SAMPLE COURSES

Physical Geography: Meteorology, Climatology, Introductory Soil Science, Natural Hazards

Human Geography: Population Geography, Urban Environment, Environment & Sustainability

Regional Geography: Artic Environments, Prairie Landscapes

Geomatics: Computer Mapping, Introduction to GIS, Introduction to Remote Sensing

SAMPLE FIRST YEAR

Geography (Science)

GEOG-1201(3) Introductory Atmospheric Science

GEOG-1202(3) Introductory Earth Science

One introductory human geography course (GEOG-1102(3) or GEOG-1103(3))

RHET-1103(3) Academic Writing: Science or any other section of Academic Writing (if required)

6 credit hours Humanities

6-9 credit hours Elective, depending on interest

Geography (Arts)

GEOG-1102(3) Introductory Human Geography: People, Culture, and Environment

GEOG-1103(3) Introductory Human Geography: Population, Place, and Development

One introductory physical geography course (GEOG-1201(3) or GEOG-1202(3))

RHET-1102(3) Academic Writing: Social Science or other section of Academic Writing (if required)

6 credit hours Humanities

12-15 credit hours Electives, depending on interest

NOTE: This sample first year is representative of the courses you may take. For many of our programs, you may choose another set of courses and still be well on your way to a degree. Also, for most programs you do not have to take 30 credit hours (five full courses) in your first year.

REQUIRED HIGH SCHOOL COURSES

You must meet The University of Winnipeg's general admission requirements. **For Science:** You must also have either **Pre-Calculus Mathematics 40S** or **Applied Mathematics 40S**. Chemistry 40S, Physics 40S, and/or Pre-Calculus Mathematics 40S may also be required, depending on your course choices.

HOW TO APPLY

For details on application requirements and deadlines, and to apply online, please visit:
uwinnipeg.ca/apply

For more information contact a student recruitment officer at welcome@uwinnipeg.ca or 204.786.9844. In any case where the University's Academic Calendar and this fact sheet differ, the current Calendar takes precedence.
